LOANS.

In March, 1915, a loan of £5,000,000, 4½ per cent bonds, due May 1, 1925, with option to the Government to redeem in whole or in part at par on or after May 1, 1920, on giving three months notice, was issued in London at £99½ per cent to provide for Capital expenditure upon undertakings under contract, including terminals and works at Halifax, St. John and other ports, construction on Welland Ship Canal, deepening the St. Lawrence Ship Channel and other Capital outlays.

Under the provisions of "The Appropriation Act, 1915" and of "The Consolidated Revenue and Audit Act," authority was given by Order in Council P.C. No. 1774 of 27th July, 1915, for the raising of a loan of $45,000,000 in New York City by the issue and sale of notes of the Dominion of Canada bearing date 1st August, 1915, as follows:—

$25,000,000 one year 5 per cent notes at par and interest, less ¾ per cent commission.

$20,000,000 two year 5 per cent notes at 99½ and interest, less ¾ per cent commission.

The notes were of the denomination of $1,000; were delivered in New York; and payment made in New York funds. The holders had the right prior to three months before maturity, respectively, to convert the same into an equal principal amount of twenty year 5 per cent bonds maturing August 1, 1935, and not subject to prior redemption.

During the fiscal year 1916-17 up to and including November 30, 1916, $24,698,000 of the one year 5 per cent notes were redeemed and $136,000, together with $221,000 of the two year 5 per cent notes, making a total of $357,000, were converted into twenty year 5 per cent bonds maturing August 1, 1935:— thus leaving on November 30th overdue notes outstanding of $166,000.

Under the provisions of the "Public Service Loan Act 1916" authority was given by Order in Council P.C. No. 750 of 30th March, 1916, for the raising of a loan of $75,000,000, 5 per cent gold bonds, interest payable April 1 and October 1, maturing in equal amounts of $25,000,000 each in five, ten and fifteen years respectively, both principal and interest payable at the Agency of the Bank of Montreal, in New York City, in United States gold coin, such loan placed on the New York market at issue prices as follows:—

The 5 year bonds, maturing April 1, 1921, at 99·56 and interest, yielding about 5·10 per cent.

The 10 year bonds, maturing April 1, 1926, at 97·13 and interest, yielding about 5⅜ per cent.

The 15 year bonds, maturing April 1, 1931, at 94·94 and interest, yielding about 5½ per cent.

WAR LOANS DOMINION OF CANADA.

Under the provisions of 6-7 Geo. V, chap. 28, authority was given by Orders in Council P.C. No. 2421 of 20th November, 1915, and P.C. No. 3030 of 25th December, 1915, for the raising of a loan of $100,000,000 5 per cent bonds maturing 1st December, 1925, to be issued in Canada at a price of 97½ with the option to the holders thereof to convert into any future issue—other than issues made abroad—by the Government for the purpose of carrying on the war, at the issue price of 97½ plus accrued interest, as the equivalent of cash for the purpose of any such issue.

On the 22nd November, 1915, the prospectus for this loan was issued for the amount of $50,000,000 contemplated in the first Order in Council. On the closing of the subscription list on 30th November, the Department found that from 24,862 individual subscribers a sum aggregating $78,729,500 had been offered. This amount taken with the amounts subscribed by the various banks, totaled over $100,000,000. By authority of the Order in Council of 25th December, the amount of the issue was therefore increased to $100,000,000.

Although not relevant to the operations of the financial year under review, reference may be made to the further war loan of $100,000,000 issued in September 1916, very much on the same lines as those of the previous war loan. Authority for this loan was given by Order in Council of the 19th September, 1916, P.C. No. 2211. It carries 5 per cent interest for fifteen years and was issued at the price of 97½, principal and interest payable in gold. The prospectus was issued on the 15th September and on the closing of the subscriptions it was found that from 34,526 subscribers the Department had offerings of $201,444,800.

Advances by way of temporary loans have been made from time to time by the Imperial Government amounting, on the 31st March, 1916, to £28,000,000 which carried a capitalized debt of £28,354,598/11/11 or $137,992,379.82.

From the close of the fiscal year 1915-16 to 31st October, 1916, additional advances have been made amounting to £12,500,000 or $60,833,333.30 making the total advances £40,500,000, to which must be added £354,598/11/11 as increased liability on the capitalization of £28,000,000 mentioned above; £22,324,295/11/0 of which was funded by conversion into $107,612,029.53 Dominion Government dollar bonds as under:—

£2,400,000 capitalized, on basis of £100 debt to each £95 advance, to £2,526,-315/15/9 or $12,404,678.36, 3½ per cent bonds maturing 1st March, 1925-28.

£19,600,000 capitalized, on basis of £100 debt on each £99 advance, to £19,797,-979/15/3 or $95,207,351.17, 4½ per cent bonds maturing 1st December, 1925-45.

These bonds were handed to the agents of the Imperial Government in New York. Deducting them from the total liability on account of the £40,500,000 or $197,792,-837.55 above mentioned leaves a net floating liability on 31st October, 1916, on this account of $90,180,808.02.

From the 31st October to the 31st December, 1916, further advances of £4,500,000 have been made by the Imperial Government, which increases the net liability from $90,180,808.02 to $112,080,808.02. Against this may be placed advances of $95,000,000 made by the Dominion to the Imperial Government, through the Imperial Munitions Board, up to the 31st December, 1916, which would leave at that date on this account a net indebtedness to the Imperial Government of $17,080,808.02.

On the 1st of March, 1916, $357,900 of the 1896 3½ per cent loan was redeemed leaving an outstanding amount of $10,000 which has since been taken up.

LOANS.

Under the authority of Order in Council, P.C. 1774, of 27th July, 1915, the option was granted to the holders of the $45,000,000 loan issued in New York, 1st August, 1915, to convert into twenty year 5% bonds maturing August 1, 1935. At the close of the fiscal year 1916-17 $873,000 of the above loan was thus converted.

Under the provisions of the "Public Service Loan Act 1916" authority was given by Order in Council, P.C. 750, of the 30th March, 1916, for the raising of a loan of $75,000,000 5% gold bonds, interest payable April 1st and October 1st, maturing in equal amounts of $25,000,000 each in five, ten and fifteen years respectively, both principal and interest payable at the Agency of the Bank of Montreal in New York City, in United States gold coin, such loans were placed on New York market at issue prices as follows:—

The 5 year bonds, maturing April 1, 1921, at 99·56 and interest, yielding about 5·1/10 per cent.

The 10 year bonds, maturing April 1, 1926, at 97·13 and interest, yielding about 5⅜ per cent.

The 15 year bonds, maturing April 1, 1931, at 94·94 and interest, yielding about 5½ per cent.

War Loans Dominion of Canada.

Advances by way of temporary loans have been made from time to time by the Imperial Government amounting, on the 31st March, 1917, to £57,500,000, which carried a capitalized debt of £59,503,500–10–7 or $289,583,702.52. During the year 1916-17 £22,324,295–11–0 of the above amount was converted into Dominion Government dollar bonds as under:—

£2,400,000 capitalized, on basis of £100 debt on each £95 advance, to £2,526,315–15–9 or $12,404,678.36, 3½ per cent bonds maturing 1st March, 1925-28.

£19,600,000 capitalized, on basis of £100 debt on each £99 advance, to £19,797,979–15–3 or $95,207,351.17, 4½ per cent bonds maturing 1st December, 1925-45.

The above conversions into currency were made on basis of rates of exchange at the dates on which such advances were made. These bonds were handed to the Agents of the Imperial Government in New York. Deducting them from the total liability of £59,503,500–10–7 or $289,583,702.52 above stated leaves a net floating liability on the 31st March, 1917, of £37,179,204–9–7 or $180,938,797.42.
